

Weekly Progress Report

Team#: 8

Project Name: Attendin

Team Members: Dominic Iquina, Mutazz Zeidan

Advisor: Elizabeth Pawley

Date: Monday – October 27th 2025

What was accomplished last week:

Last week/this week we finished up Dominic's Capstone presentation. We also looked a little into firebase as it's our first time utilizing a flutter specific backend.

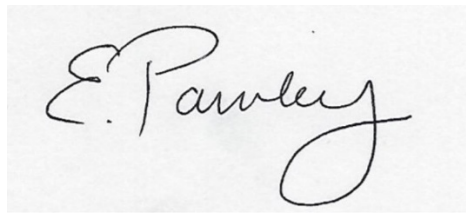

Plans for coming week:

Look into expanding on backend requirements and possibly pick up some easier front end tickets just to clear out some easy to-dos. Maybe work on a style guide since I have a bad habit of leaving inconsistencies in our modules.

Issues or concerns:

Not really an issue/concern but we're getting to a good spot where we could start on full development of the project but are trying to hold the breaks a little since that's mainly meant for the spring semester.

Advisor comment(s):

A handwritten signature in black ink, appearing to read "E. Pawley", is centered within a light gray rectangular box.
